## CROSSLEY COURT SEWER EXTENSION

**June 29, 2010**

### **Addendum No. 1**

1. A Bid Bond Form for completion is provided herein as a separate attachment.
2. Section 00410, Form of General Bid – Lump Sum / Unit Prices  
**Remove** Bid Item No. 4c, Description Bit. Conc. Driveway Aprons, Estimated Quantity Unit “2 EA”.  
**Add** Bid Item Description, “One Bituminous and One Concrete Driveway Apron.”
3. Section 00410, Form of General Bid – Lump Sum / Unit Prices  
Owner reserves the right to remove Bid Item No. 4b, Permanent Pavement from the Contract.
4. Section 00410, Form of General Bid – Lump Sum / Unit Prices  
**Add** Bid Item No. 8a, Description “Unsuitable Material, per cubic yard” in category Miscellaneous Earthwork, Estimated Quantity Unit “50 CY”. (See attached revised Bid Form.)
5. Several locations in the Specs  
**Remove** Contract time allowed and project completion of “90 consecutive days”.  
**Add** Contract time allowed and project completion shall be “120 consecutive days upon the issuance of a ‘Notice to Proceed’”.
6. Temporary Trench Pavement Detail on Dwg. No. D-2  
**Remove** “CONTRACTORS ACTUAL EXCAVATION”.  
**Add** “TRENCH WIDTH PAY      LIMIT”.

7. Clarification for #44 Black Point Road building sewer lateral connection:

The relocation of the building sewer lateral for #44 Black Point Road must be coordinated with the property owner. This is a commercial property with high usage during the day, therefore the lack of sewer service to this building must be kept to a minimum while construction is in progress. The gravity sewer main from Station 100+00 to 102+40, or portion thereof, may not be subject to air testing because of the need to construct and reactivate the building sewer lateral for #44 Black Point Road under a time constraint.

**END ADDENDUM NO. 1**
